CCO/Pixabay/Peexels Technology has a significant impact on small businesses, increasing performance and giving SMBs access to tools to which they might not otherwise have access. As every small business is different, however, you need to consider several options before finding the right fit. The following are some of the top computers for small businesses, ranging from the compact and portable to full-service desktops. 1. Apple iMac Pro Businesses operating in creative spaces or who need to leverage powerful design options can't go wrong with the Apple iMac Pro. An all-in-one desktop option, this Apple computer provides impressive graphical processing power. The intuitive interface of OS lends itself to creative and visual projects, as well. The Apple iMac in 32 or 64 GB RAM options and features 1TB of SSD storage. The Lenovo Yoga 920 is a great multitasker, as capable with spreadsheets as it is with design. Businesses that need to address many different tasks well and want it in a compact setting might consider this PC laptop. This Lenovo laptop works with a digital pen and features a flexible construction that lets you convert it from a traditional laptop to a tablet to a digital easel in an instant. 3. Dell XPS 8930 If your operating budget for IT is tight, you can get solid performance at an affordable price point via this Dell tower desktop. The Dell XPS 8930 has a solid range of ports, including two USB-C ports, an HDMI port, and an SD card reader to name just a few. If your budget expands and you want more graphical performance down the road, you can utilize two PCI slots for expansion cards and a replaceable GPU. 4. Samsung Chromebook Pro If you are a more advanced user and comfortable in a web-based environment as opposed to a traditional desktop environment, the Samsung Chromebook Pro is a good option. The 12.3-inch screen makes it a highly portable choice, while the web-based approach means you can access your workspace anywhere you go. This Samsung convertible laptop also works with a digital pen and features a touchscreen. 5. Apple Mac Mini While you may love the look and function of Apple technology, you might not love the price tag. The Apple Mac Mini is a happy alternative, delivering the aesthetic and performance of the stylish iMac Pro at a more affordable price point. Two Thunderbolt 2 ports and enhanced Wi-Fi performance give business owners powerful connectivity, too. 6. Surface Studio 2 The Surface Studio 2 is Microsoft's answer to Apple users who prefer an aesthetic and graphics-oriented experience. Business owners who prefer a PC environment get the look and feel of a Mac with the straightforward interface and expandability of a PC computer. If the Company can effectively reach the target market segment of individuals in need of their services, and provide them with the quality and conveniences that are most important to them, revenues should increase annually as is projected. The Company's industry does not have any seasonality that affects it. Overall, [Company Name] has the services and professionalism necessary to flourish within its market. By delivering superior customer service, offering quality products as well as installation services, [Company Name] potential is excellent. 4.1 Market Segmentation [Company Name] target market strategy is based on becoming a destination for people who are looking to purchase PC's, PC parts, accessories; as well as those in need of repair services. The Company's marketing strategy is based on superior performance in the following areas: Top-notch products, Knowledgeable and professional staff Quality repair services Excellent customer service Affordability Customers within the computer hardware and technology industry want top-notch products, exceptional customer service and affordability. [Company Name] customers will appreciate the outstanding service and products that the Company offers, as well as the knowledgeable and experienced staff. Although these customers will have the option to get products elsewhere, they will rely on [Company Name] to deliver the dedication and dependability that they desire. 4.2 Target Market Segment Strategy [Company Name]' target market segments consist of customers within the computer hardware and technology industry. The Company knows that satisfied customers aid the Company by referring its business to other clients who need these services. [Company Name]' skills and capabilities will allow the Company to effectively compete and build on to its reputation within its area. Therefore, obtaining funding as well as developing a marketing strategy will improve the Company's profitability levels and aid them in building a strong customer base. [Company Name] will utilize the following sales literature to reach its target market: online listings yellow pages trade directory/ trade shows [Company Name] will utilize the methods below to reach its target market: Collect as much demographic data as possible on potential area service users to assist management in creating both immediate and long-term plans for reaching out to this market segment. Formulate and adopt additions and/or revisions to the marketing strategies within this Business Plan once sufficient demographic data has been gathered. Management must keep in mind that making the masses aware of the Company is far more difficult and expensive than working with an existing user base. Management must take particular care in making certain marketing dollars are wisely spent since funds are limited. Construct a sophisticated website that highlights the benefits of choosing our Company and its services. 4.3 Service Business Analysis The computer hardware industry in the US has an annual growth of \$136 billion, approximately one third of the world. In US spending on computer systems accounted for 56 percent of this total, followed by networking equipment at 19 percent, peripheral equipment, 16 percent, and storage, 9 percent. [Company Name] is a part of the computer hardware industry, which is one of the fast paced flourishing market in the world. As per surveys, global computer hardware market grew by 5.6% in 2007 to reach a value of \$399.9 billion. A major reason for this overall lucrative growth is the sales of computer hardware apart from the PC's that has alone yielded total revenues of \$208.2 billion, which is equivalent to 56.7% of the overall market value. It is also being estimated that by 2012, the global computer hardware market is forecast to have a value of \$537.3 billion, an increase of 34.4% since 2007. As simple as it may be, [Company Name] method of offering the best products while executing exceptional customer service has an important effect on the bottom line: People want to give their business to those who appreciate it. Skillful use of advertising as well as strong communication will bring the business the Company desires. 4.3.1 Competition and Buying Patterns [Company Name] main competition includes Crazy Kennys who is located over 10 miles away from Pickerington. Their selection is too generic and too slim. Price List and marketing scheme is outdated. [Company Name] plans to offer the best prices as well as a large variety with cutting edge equipment, gadgets, technical knick-knacks, and offer a better overall presentation. The Company's other competitor is Microcenter, which is located over 25 miles away from Pickerington. Microcenter is a large computer store. Though they offer used equipment, its not promoted and is only offered per customer request. Usually they only re-sell processors. They have a 20,000 sq ft store and sell books, manuals, parts and have been in Columbus for years. [Company Name] plans to offer the best prices as well as a large variety with cutting edge used equipment, gadgets, technical knick-knacks, and offer a better overall presentation. Additionally, the location will be within Pickerington where a 25 mile drive is not necessary to find the same items. Copyright © by Bizmove Free Business Guides. All rights reserved.
